A news dispatch from Frankfort Wednesday was as follows:
"Superintendent of Public Instruction Barkedale Hamlett stated today that several more cases of padded school censuses have been unearthed in the past few days and that the discovery has saved the State over \$200,000 already."

"He says he believes the total amount that ultimately will be saved will reach \$500,000."

Prof. Hamlett says the investigation of the school census of frauds has developed the fact that dead people, unborn children and people living in other States and foreign countries have been put on the school census returns.

"He will take steps at once to put each case before the grand jury in the county where the padding was done and the guilty parties will be vigorously prosecuted and sent to the penitentiary, if possible."

"The school censuses of a number of cities and counties are being investigated now and further frauds are expected to develop."

Michael's Band at Fair.

Michael's Celebrated Concert Band will be one of the features of the Bourbon County Fair, September 3-7. Miss Hammann, soloist, who delighted the crowds here last year will occupy a prominent place on the daily program.

Work On Hospital Begins.

The Danville Construction Co., which recently secured the contract for remodeling of the old G. G. White property in White Addition which will be used for the Massie Memorial Hospital Monday began work with a large force of men. The remodeling of the building will be pushed with all haste and it is expected it will be completed and ready for occupancy within four months.

County Board to Meet Monday

The Bourbon County Board of Education will meet Monday, September 2, at 10 a. m., in the office of the County Superintendent, Miss Mabel Robbins.

Colt Stake Opening Day.

The colt stake will be the feature of the opening day of the Bourbon Fair, September 3-7, and is expected to bring out a large number of entries.

Foundation Half Completed.

The contractors for the foundation of the building for the Bourbon Tobacco Warehouse Co., in Barnes Addition have completed about one-half the work and are now filling in against that part that has been completed, grading from the higher points on the site. As soon as the remainder of the foundation is completed the contractors will lay the concrete floors over the entire area to be covered by the building. The lumber contractors have unloaded several cars of heavy timbers and it is said fully fifteen cars of this material will be required to complete the immense structure, although the outside walls will be constructed of brick.

Maccabees to Hold Festival.

The local organization of the Maccabees will hold a fall festival in this city for one week, commencing September 23. A contract has been closed with the Greater Krause Shows to furnish the attractions.

The Greater Krause Shows come highly recommended. The Meadville, Pa., Daily News says it is by far the best carnival ever shown in that city, and emphasizes the fact that every one of the attractions are meritorious and clean.

A daily balloon ascension and ninety-foot high dive, by a young lady, will be two of the special features.

Mr. R. S. Porter, of Paris, has been engaged as advertising manager, and a scientific advertising of this and all of the neighboring counties will be started at once.

Terry Property at Auction.

On Saturday, Sept. 14, 1912, at 2 p. m., on the premises, we will sell for J. S. Terry his property located on Vine street, Paris, Ky. The property consists of a lot 63x248 feet, with a cottage of 5 rooms, hall, pantry, presses, 2 porches, eastern, coal house, hen house, shade trees, large garden and poultry yard. This is a very desirable and convenient home. Terms liberal.

HARRIS & SPEAKES.

Being Remodeled.

Contracts have been let for the remodeling of the old Comet Theater in the Odd Fellows' building at the corner of Fifth and Main streets. The specifications call for a new front and complete ventilating system. Also new chairs are to replace the old ones now in use. When this theatre is complete it will be one of the most modern and up-to-date picture houses in the State.

The management will run two and possibly three pictures daily. It is their intention to use the Universal Film Service, thus assuring the public that they will see the best to be had from the independent film manufacturers. Another feature of the new theatre is that they will follow the custom throughout the country and will have an admission fee of only five cents.

The theatre is to be renamed and will be opened about September 15.

Sugar Tax.

The price of sugar is not to be reduced two cents a pound, at least not as long as the present Republican Senate and President remain in business in Washington.

The Democratic House of Representatives, it will be recalled, passed a bill placing sugar on the free list. It was estimated this would reduce the price approximately two cents a pound. Another bill was passed placing a slight tax on incomes in excess of \$5,000. This would have meant, in a few words, a transfer of a small portion of the burden of taxation from the breakfast table to wealth. The corporation-controlled Senate has objection to this program, and both bills will die with the session.

The Democratic program of substituting a tax on wealth for the tax on sugar was class legislation, the standard-bearers and protectionists cried out in chorus. They were never heard to complain, however, of the existing class legislation which permits the burden of federal taxation to fall entirely on the shoulders of the masses, taxing the average man, woman and child on every stitch of clothing they wear and everything else they must have in order to live, while permitting fortunes to go untaxed.

The masses of the people produce the wealth, and by legislative advantage a few get possession of it, and now those few object, and have prevented the transfer to wealth of even the small amount of taxation derived from the tariff on sugar, which is but one of more than 500 things on which the consumers pay a tax. They would prefer that the government continue to tax sugar instead of wealth, because they eat no more sugar than the section hand on the railroad or the worker in the mill and therefore under the present system of protection are compelled to pay a greater tax to the federal government than does the poorest man.

If a fiscal system which requires a millionaire to pay no more tax to the national government than the section hand or the mill-worker is fair and just there is no need of reform; but if such a system is unjust, the income tax and free sugar bills were moves in the right direction.

The average citizen of this country eats 80 pounds of sugar a year. A saving of 2 cents a pound would have meant \$1.60 per person a year, or a saving of \$8 to a family of five.

Because of the obstructionists in the Senate, however, this saving is not to be. The people must go on paying an artificial price for sugar so that the poor old sugar trust shall not want for dividends on its watered stock, while the millionaires need not bother about paying a single penny of taxation on their wealth for the support of the government. Perhaps some day it will be different. But it will not be until a Democratic Senate and President is elected to co-operate with a House of Representatives that is really trying to represent the will of the people of this country.

Negro Population Decreasing.

The negro population of Kentucky decreased in the twenty years from 1890 to 1910 from 263,071 to 261,656, and the number of mulattoes among the negroes increased in that time from 51,986 to 65,943.

The Census Bureau, in a statement on the proportion of mulattoes among the negro population of the United States, shows that the percentage of mulattoes among the negroes of Kentucky increased from 19.4 per cent. in 1890 to 25.2 per cent. in 1910. The statement shows further that in 1870 the total negro population of Kentucky was 222,210, of whom 44,711, or 20.1 per cent. were mulattoes.

Caleb's Dope.

Caleb Powers, who is facing certain defeat in his race for reelection to Congress in the Eleventh district on the Republican ticket, is out in another "whine", addressed to the voters of the district, in which he is trying the rather difficult feat of riding the elephant and Bull Moose at the same time. Powers however, has the right dope when he says: "Neither Roosevelt or Taft will get a single electoral vote in this State—not one. With the Republican party split as it is every sane man knows that this State will go largely Democratic." Referring to the chaos in the Eleventh district, Powers again shows his "nut" is working in the right channel when he says: "As a result of this division in the Republican ranks, the Democratic party will elect the county officers in half of the counties of the district."

Commissioner Ward on the Job.

Executive Agent J. Quincy Ward, of the Fish and Game Commission, and Game Wardens Hugh Jenkins, of Franklin; A. C. Shott, of Henry, and H. T. Huffman, of Harrison, have just finished a raid on Kentucky River fishermen from Frankfort to its mouth, and confiscated so many nets that it was necessary for them to charter a towboat to carry their plunder back to Frankfort. No arrests were made, but the sheriff of each county in which the nets were found will serve the warrants.

Executive Agent Ward said that if they had taken all the nets they passed they would have been unable to handle them all. The raid is the first of a number planned. It is the intention of the commission to break up entirely the wholesale taking of fish by professionals from Kentucky rivers.

Genuine Belgian Charity.

Around a hut where, according to tradition, a young Irish princess was murdered, grew up the present town of Gheel, in Belgium, which became known as "the colony of the crazed." At first a temple in memory of the princess was erected and later it became a refuge for the "sick in mind." The remarkable thing about this Belgian town is that the residents accept patients in their own homes so that they may enjoy the beneficial effects of domestic and social intercourse.

When Disraeli Faltered.

Disraeli was speaking in support of Lord Lytton's motion condemning the evacuation of Kandahar. "My lords," he said, "the key of India is not Merv, or Herat, or"—here came a long pause, and rather painful anxiety in the audience, and then the quiet resumption of the thread—"It is not the place of which I cannot recall the name—the key of India is London."—One Look Back, by the Rt. Hon. G. W. E. Russell.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Praise Be, the Brother Was Lying.

Police courts are not always marked by an atmosphere of piety, but the exception to the rule occurred in a court where a very religious man, against whom one of the neighbors had made a complaint, was being tried for some trivial offense. The complaining witness was called to the stand to relate his side of the story, and the defendant listened closely for several minutes. Then his personal feelings overrode court etiquette and he rushed up to the judge, fervently exclaiming: "Your honor, the brother is lying. Praise the Lord!"

CIGARETTES ARE BAD FOR WOMEN

Mrs. Woodrow Wilson Has Decided Views on Subject.

AN ERROR IN NAMES.

Wife of Democratic Candidate Gives Out Letter Taking Strong Stand on Smoking Habit.

New York.—For the first time since Woodrow Wilson became the Democratic presidential candidate has Mrs. Wilson appeared. She attended in person her husband's daily conference with reporters, although heretofore she has made special requests that she be not quoted nor written about in the papers.

What Mrs. Wilson wished to have fully understood was that if she becomes the first lady of the land she will not, as has been said in a widely distributed interview, have packages of cigarettes in her personal desk at the White House and indulge in smoking them with her callers.

Through Governor Wilson, Mrs. Wilson asked that publicity be given to a letter she had written to the editor of the State Journal at Columbus, O., repudiating an alleged interview with her in which she defended cigarette smoking for women. The interview had come to her in a letter signed "American Citizen," which said:

"Dear Madam—I can scarcely think of any greater calamity to the young women of the nation than to read such a preachment as your interview offers them. I am a workman, and I see men lose their jobs almost every day because they are incapacitated for work by the use of the cigarette. If smoking does this for strong men what will it do for girls and women?"

The "interview" was indeed a cordial endorsement of the woman smoker. Here are some of its assuring phrases, all credited to Mrs. Wilson:

"A woman writer for a syndicate of Sunday newspapers asked Mrs. Woodrow Wilson if she agreed with Gertrude Atherton's opinion of the smoking of cigarettes by women. She smilingly exhibited three cigarette boxes piled in the corner of her desk, all but empty.

"Why shouldn't a woman smoke if she enjoys it?" she queried.

"Why hasn't she just as much right to a cigarette as a man? Certainly I agree with Mrs. Atherton that any existing prejudice against women smoking is to the last silly and absurd.

"Smoking cigarettes is a question of manners, not morals. It promotes good fellowship.

"Some women feel that a cigarette calms their nerves and helps their brains into working order. Personally smoking diffuses my thoughts instead of concentrating them. I enjoy it as I enjoy after dinner coffee. Both are pleasant ways of ending and finishing off; both add to conviviality and good fellowship."

The editor of the Ohio State Journal, it was clear, had been much incensed at the apologies for the cigarette habit among women attributed to Mrs. Wilson, as he wrote on Aug. 10 an editorial in which he called for the defeat of Governor Wilson or a repudiation from his wife. If there was no mistake about it, he wrote, "Mrs. Woodrow Wilson shouldn't be mistress of the White House."

If the Ohio editor was emphatic Mrs. Wilson was certainly not less so. After the reporters had said they would gladly publish her letter to the Ohio editor she asked for an hour's time in which to write one. This was what she prepared:

Dear Sir—I have just received a copy of the journal with your editorial entitled "Smoking Women" and I beg leave to indignantly deny the statement that I approve of women smoking cigarettes. The interview upon which your editorial was based is a pure invention. I intensely dislike the cigarette smoking habit for women—in fact, so strong is my feeling on the subject that my real danger lies in being unjust and unkind in my judgment of those who differ with me in this respect. But certainly no woman in our household ever has or ever will smoke. Quite apart from the bad taste of it, I believe with you that it has an extremely injurious effect on the nerves.

ELLEN A. WILSON.

(Mrs. Woodrow Wilson.)

Governor Wilson, in approving the letter sent out by Mrs. Wilson, offered what he thought might prove an explanation for the interview.

"I do not think it was maliciously invented," he said. "There is a rather well known writer who signs herself Mrs. Wilson Woodrow, and she no doubt has been confused with Mrs. Wilson."

Mrs. Wilson Woodrow was formerly married to a relative of Governor Wilson, and it is understood that her views on the matter of women who smoke are different from those held in the household of the Democratic candidate.

The divided Republican party is like the boy "blowing against the wind." There will be a lot of bluster, but it will not take votes away from Wilson and Marshall.

Winning with Wilson means more than a mere Democratic victory; means restoring real prosperity.

Wilson is the best equipped man nominated for the presidency since Lincoln.

George W. Perkins is sure a "bully" Progressive.

DEMOCRACY MUST BE A WORTHY INSTRUMENT

People Trust It, Says Woodrow Wilson, and It Must Make Good.

Sea Girt, N. J.—Woodrow Wilson at the "Little White House" at Sea Girt is daily called upon to demonstrate his ability as a ready speaker.

There is not a day passes but what he meets various delegations who call to assure him of their support.

In speaking of political machines to the Brooklyn Democratic club Governor Wilson said: "Machines are bad, but an organization may be very essential. For instance, I have been surrounded by an organization here in New Jersey while doing my best work. A machine uses its political opportunities for the selfish ends of its members. No members of our organization would ever think of doing that. Public opinion in New Jersey has drawn the distinction. It has killed the machines, and it is going to keep the organization going.

"It seems to me that we are standing in the presence of something higher than allegiance to the Democratic party. The country has been disappointed in the Republican party, and it is turning to the Democratic party. That party is willing to show the way toward those things which must be realized.

"Some gentlemen seem to find it easy to make personalities out of politics, but it seems to me that whenever that is done politics is debased.

"Men who are in search of reform are now resorting to the Democratic party, because, for my own part, I do not know where else they will turn to expect the results. There is no discounting the strength and serviceability of a united party, and the splendid part is that the Democratic party is united.

"Speaking seriously, nothing affords me more genuine pleasure than to receive such greetings from men in Jersey who have at least tested my qualities. Because you have known me at close range and if you will be kind enough to vouch for me perhaps the rest of the country will be credulous of your report.

"I have spent a great deal of time since I became governor of New Jersey defending your character. It was supposed in the old days, when the board of guardians was in charge of the state, that you were all of you disposed to give the most monopolistic trusts of the country a great ringing welcome in New Jersey.

"New Jersey was known as the mother of trusts—a very troublesome and questionable family—and I had to spend my time outside New Jersey assuring the people of the Union that it had not been the fault or the disposition of the people of New Jersey that there were certain gentlemen who had undertaken to carry the Republican party in their pockets and to administer independently of the rank and file of Republicans in the state.

"New Jersey is progressive, but the United States is progressive, and we have here merely a delightful sample of the people of the United States.

"Now, these people are not bent on destroying anything, but they are bent on setting everything in order; they are bent upon justice; they are bent upon seeing to it that the people in general are partners of the government, as I was trying to show the other day. And the Democratic party is now placed under a peculiar responsibility. It has to prove that it is the worthy instrument of that zeal on the part of the people of the United States. If it does not prove it now it will never be given another chance to prove it. No party that proves unfaithful to that ideal will ever again be trusted by the people of America.

And therefore we are standing at a turning point in our politics. We must make good or go out of business. In the vernacular, it is a case of 'put up or shut up,' because words are going to be discounted. Nothing will be honored except the actual carrying out of such programs as sensible men may unite in for the common benefit."

THE GREAT DUTY OF ADJUSTMENT.

We are servants of the people, the whole people. The nation has been unnecessarily, unreasonably at war within itself. Interest has clashed with interest when there were common principles of right and of fair dealing which might and should have bound them all together, not as rivals, but as partners. As the servants of all we are bound to undertake the great duty of accommodation and adjustment.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

The Democrats are not taking the election of Wilson for granted. They are working and working harder than in a score of years and working as a united party.

It is reported that papers which are supporting the bull moose have ordered extra fonts of "Is." And they will be needed when Teddy gets to talking.

FOUND RIGHT MAN AT ONCE

Seedy and Unlikely Looking Individual Knew All About City's Street Railway Troubles.

A man once came to Newton D. Baker, mayor of Cleveland, and said: "My town is going to have a street railway fight. I want to know all about Cleveland's."

"I shall be only too glad to tell you all I know," said Mr. Baker, "but unfortunately I have appointments until one o'clock. Will you come back?"

"How can I most profitably put in the two hours here until that time?" asked the stranger.

The answer was: "Go out on the public square, sit down by the most unlikely man you can find—the one who looks most as if he didn't know the difference between a franchise and a double track. Ask that man to tell you about Cleveland's street railway fight, and when you come back I will tell you whatever you haven't been able to learn from him."

The man came back at the end of two hours. "I needn't keep my appointment here," he said. "I found an old chap whose feet were out of his shoes, whose elbows were out of his shirt sleeves, and who looked as if he had just sobered up for the first time in a month—in short, I found the unluckiest looking individual at large. I put one question to him and he started right in at the beginning and filled in all the details and brought me down to date. There's nothing for you to tell me, unless you know what's going to happen. He hasn't been let in on that."—The Survey.

ROUGH MANNERS OF THE PAST

Drinking Trick in Which English Monarch Figured—The First Fingerless Gloves.

Drinking tricks figured in diplomacy in the time of Henry VIII. Mrs. Henry Cust quotes the king's challenge to Hubertus, the representative of the Palsgrave Frederick. He sent for two huge goblets, filled with wine and beer respectively, and gave the envoy his choice for a "drinking out" test. In vain Hubertus pleaded that his master had actually instituted a company of the Golden Ring to put down such contests, any member who broke the prohibition to lose his ring and give \$1 to the poor. Henry, anxious to prove that the Englishman was the better man, promised to find the forfeits himself and drank his beer at a draft, while it took the German four gulps to account for the wine.

How early did mankind think of the convenience of the fingerless glove? Little was said of gloves in ancient times, but in most cases it is obvious that they had fingers. Those worn by the secretary of the younger Pliny, used when he visited Vespasian, so that he might keep on jotting down notes in spite of the cold, must have been fingered, no less than those of the glutton in Anthenaeus, who wore gloves at table so that he might handle the meat while hot and get in advance of his bare handed fellow diners.

A Vivid Picture.

Of all "aptitudes," the mechanical is least likely to manifest itself in a feminine brain. The young woman whose visit to a locomotive works is described in Young's Magazine, was doubtless interested in what she saw, but her account of the processes observed leaves the reader to doubt her entire understanding of them.

"You pour," she told a friend, "a lot of sand into a lot of boxes, and you throw old stove lids and things into a furnace, and then you turn the red-hot stream into a hole in the sand, and everybody yells and shouts.

"Then you pour it out, let it cool and pound it, and then you put in it a thing that bores holes in it. Then you screw it together, and paint it, and put steam in it, and it goes splendidly, and they take it to a drafting-room and make a blue-print of it.

"But one thing I forgot—they have to make a boiler. One man gets inside and one gets outside, and they pound frightfully, and then they tie it to the other thing, and you ought to see it go!"—Youth's Companion.

Thoughtful John Chinaman.

"The virtues of a Chinese laundryman never have been half told," said the woman. "Not of my laundryman, anyhow. He is such a motherly old soul. The other day he brought my handkerchiefs home folded in two different ways, some squared, some cat-cornered."

"Why the different styles in ironing?" I asked.

"John pointed to the stack of cat-cornered handkerchiefs. 'These holey,' he said. Then to the square pile, 'These good. In big hilly, not gettee mix and go out with holey handkerchief.'

"Kind old John. His idea was all right, but doesn't keep me from getting mixed, for I can never remember which shape means holey and which means whole, so I am likely to disgrace myself with a holey handkerchief after all."

Tested.

"Eighty dollars for a set of tires is pretty stiff," said Jipson. "Haven't you got anything cheaper?"

"Sure," said the affable salesman. "I have a set here you can have for ten dollars."

"Ten, eh?" said Jipson. That's good and cheap. How about 'em—are they good for anything? Ever had 'em tested?"

"I should say so," said the salesman. "They've traveled over 30,000 miles already."—Harper's Weekly.

Clark County Masons Celebrate.

The 100th anniversary of Masonry in Clark county was celebrated by the combined lodges of the county Tuesday. The principal address of the day was delivered by the Hon. Jno. M. Stevenson. On account of the death of Grand Secretary Grant in Louisville, Grand Master David Jackson was unable to be present. All arrangements had been made to entertain Grand Secretary Grant, who was closely identified with Clark county Masonry.

Maysville Wins Second Game

Yesterday afternoon Paris was defeated by the Rivermen by a score of 6 to 1.

TUESDAY.

The last appearance of the Pioneers in this city this season resulted in their defeat by Paris Tuesday afternoon by a score of 7 to 2. The locals pounded Cameron to all corners of the lot, while Hauser, for the locals, held the locals well in hand throughout the game. The batting of Harrell, Hauser and Snyder was the features.

WEDNESDAY.

Wednesday, Paris lost the first game of the series to the Rivermen, by a score of 4 to 1. Guhl was on the mound for Paris and pitched a good game. In the first two innings the Rivermen scored all of their runs. Beer was on the rubber for Maysville and while he was hit more frequently than Guhl he kept his hit well scattered.

While up to the present time the 1912 season has been more or less disastrous to a number of the clubs in the minor leagues, the players on a majority of these clubs are perfectly satisfied with the world.

The cause of their satisfaction can be easily found by any of the patrons of the game. In practically every park of any importance in the United States there is located one of the famous Bull Durham signs. Every player hitting the Bull with a fairly batted fly ball receives a prize of \$50.00 in cash, and every player making a home run in the park where the Bull Durham sign is located receives seventy-two packages of Bull Durham tobacco.

This is the fourth year these signs have been tried and from the figures to date it looks as though the records of previous seasons will be materially bettered. The signs have been hit 155 times during the present season, making a total of \$7,750 for the fortunate players. There have been 2229 home runs made in these parks, for which the heavy hitters have received 160,488 packages of Bull Durham tobacco. The statistics for the Blue Grass League follow:

Lexington, Ky.—The Bull Durham sign was hit on May 18th by William Cramer, of the Frankfort club, and on June 29th by Harry Camnitz, of the Lexington club. There have been 30 home runs made in the park, for which the heavy hitters have received 2,160 packages of Bull Durham tobacco.

Paris, Ky.—The Bull Durham sign was hit on July 20th by Fred Mollenkamp, of the Paris club, and on July 28th by W. H. White, of the Frankfort club. There have been 15 home runs made in the park, for which the heavy hitters have received 1,080 packages of Bull Durham tobacco.

Richmond, Ky.—The Bull Durham sign was hit on May 31 by Jas. Baird, of the Richmond club. There have been 50 home runs made in the park, for which the heavy hitters have received 3,600 packages of Bull Durham tobacco.

League Totals—The Bull Durham signs in the Blue Grass League have been hit five times to date, netting the fortunate players the sum of \$250 in cash. There have been 95 home runs in these parks, and as a result the big stickers have received 6,480 packages of Bull Durham tobacco.

Last Sermon Sunday.

Rev. J. S. Simms, pastor of the Paris
Methodist church, will preach his fare-
well sermon to his congregation Sun-
day morning, this being the close of
the conference year. Rev. Sims came
to Paris just one year ago, having
been assigned to the church here by
the Kentucky Conference. Prior to
his assignment to Paris Rev. Sims
spent four years in Frankfurt as the
pastor of the Methodist congregation
in that city.

Since he assumed charge of the
Paris church, Rev. Sims has made
many friends, not only among the
members of his own congregation, but
among our people in general, and it is
the wish of his many friends that he
be returned to Paris by the Kentucky
Conference, which will convene in Dan-
ville next Wednesday.

Rev. Sims is an earnest speaker and
has made a fine pastor for the church
here, and it is more than probable
that he will be returned to Paris for
the coming year.

STOCK, CROP AND FARM NOTES.

—Caywood & McClintock, of Paris, bought last week from Joseph Jacoby, of the Hutchison neighborhood, twenty-five head of fine breeding ewes, at a private price.

—Caywood & McClintock, of Paris, shipped last week, three double-deck car loads of lambs to the Jersey City market. This firm has shipped more than 10,000 lambs from Paris this season.

—Mr. I. C. Willmott, of near Hutchison, delivered last week, to Mr. Asa Jewell, Jr., of Lexington, fifty head of lambs, which averaged eighty-two pounds. The price paid was 6 1/2 cents per pound.

—Prospects for a wonderful corn crop in Boyle county was never better than this year. The rains have materially assisted the grain, and a banner season is looked for. The acreage is greater than for a number of years.

—Charles Franklin, of the Hutchison neighborhood, delivered Thursday to Baldwin Bros., in Paris, a 900 pound heifer, at 5 1/2 cents per pound. Alonzo Ginn delivered to the same firm a 750-pound heifer, for which he received \$5.

—Prof. R. F. Smith, of College Station, Texas, purchased four of the best bred fillies he could find from James H. Gillespie, of Harrison county, and will ship them to Texas and begin the breeding and raising of the Kentucky saddle-bred horses.

—It is estimated that the export cattle in Montgomery county alone this year will bring that county over \$700,000—quite a sum of money—and that all handlers will make good money. For the export cattle industry this year has been one of the best that the Kentucky farmer has ever had.

—Three or four sales of large crops of old tobacco have been reported in Nicholas county. James P. Rogers, of Carlisle, took over a crop of 16,000 pounds from Aris Wiggins, and one of 1,000 pounds from R. A. Atkinson and J. E. Ramey. His total purchases are about 40,000 pounds.

—The Mt. Sterling Gazette says export cattle are being shipped away from that place, and they are weighing heavy and are going to the East in fine shape. The business in that section this year has been remarkable, and from the prices obtained there is evidently a scarcity over the country.

—A calf with two well formed heads, four ears, four eyes, two mouths, two noses was born on the farm of Robert Moore, a farmer of near Concord, Nicholas county. The calf was perfectly formed, except for the two heads and lived several hours and ate before it died. The hide was brought to Carlisle and exhibited, where it created much curiosity.

—The Burley Tobacco Company has closed a deal for several lots located in the central section of Carlisle directly on the Main street and the L. & N. railroad, for the purpose of locating another large loose leaf tobacco warehouse at that point. Work on the new house will be commenced immediately and everything will be ready for opening when the other sales houses open there this fall.

—The Danville Advocate says: "Mr. E. T. Thatch, a prominent attorney and saddle horse breeder of Cleveland, Tenn., bought Tuesday of Allen S. Edelen, of Glenworth Farm, a two-year-old chestnut colt by Bohemian King for \$2,000."

—Sheriff Bowen Fox, who was in Lawrenceburg this week buying mules, succeeded in getting two carloads, but report the animals as rather scarce and high. He shipped his purchase to the Eastern markets."

—The continued hard rains in Bath county are causing all the creeks and branches to overflow their banks, doing great damage to crops in the bottom lands. In some of the places the water is over the tops of the tobacco plants and corn has been badly damaged and washed. A number of water gaps and a lot of fencing have been washed away. Tobacco cutting is being delayed by the wet weather, for many fields in that county are ready to be cut and housed. A few days of bright sunshine is badly needed by all vegetation in this section.

One Thing Certain.

September Woman's Home Companion.

The September Woman's Home Companion is the fall fashion number. Under the direction of Grace Margaret Gould, who edits the fashion department, women are shown how they may dress fashionably and yet economically.

There is a great variety of fashion articles and illustrations, including all the latest news from Paris and New York, which, as everybody knows, are the centers of dress ideas. Miss Gould's great contention is that women can keep in style and yet not spend extravagant sums of money. She proves her point ably and presents it entertainingly.

Special articles contributed to the September Companion are: "The Town That Had No Slums"; "Three American Duchesses," being an intimate account of the Duchess of Manchester, the Duchess of Roxburghe, and the Duchess of Marlborough; "What Men Have Meant in My Life," being an extremely personal article by a great professional writer; "How I Sing The Reary" an article of advice to singers by Ernestine Schumann-Heink, a great operatic and concert star, and "Playing Fair," a practical talk to business girls, full of stories of actual cases and other real material. Fiction is contributed by Mary Stewart Cutting, Juliet Wilbur Tompkins, Frederick M. Smith, Mary Hastings Bradley, Sophia Chandler and Beulah Marie Dix.

There are numerous illustrations in colors, and the regular departments are full of good reading and practical ideas.

Improved Educational Conditions From an Investment Standpoint

By JOHN B. M'FERRAN, Chairman Educational Committee,
Louisville Commercial Club

I.

STUDYING the educational situation in the state, I am more and more impressed with the absolute necessity for a radical change in our viewpoint concerning the subject. We have been viewing the schools rather as a necessary evil, an expense to be kept at the minimum of cost. The logical result has been largely attained—cheap houses, cheap grounds, cheap equipment and in too many cases cheap teachers, cheap trustees, cheap county boards and cheap county superintendents.

In fact, so long has this policy prevailed that we have dwarfed everything pertaining to our schools, even our educators, and most of all ourselves, the average citizens. The whole outfit is a cheap and inadequate thing for the twentieth century. OUR SLIPSHOD AND CHAOTIC SYSTEM, IF SYSTEM IT CAN BE CALLED, POSSIBLY ANSWERED FAIRLY WELL THE NEEDS OF FORTY OR FIFTY YEARS AGO, but everything else has moved tremendously within that time and moved with the greatest celerity and momentum.

With our schools here in Kentucky we have practically stood still, trusting to luck or some other mysterious power to supplement our indifference and neglect. Not so with other more prosperous and progressive states, fully recognizing the value and importance of their children. With enlightened zeal and intelligence their tendency has been to crowd all the money into their schools that could be judiciously used, looking upon it as a wise, businesslike proposition, a most profitable investment, and so it has proved, states younger and no more favorably situated, with really inferior natural resources, surpassing us in material wealth two and three fold.

BEFORE WE CAN MAKE THE NEEDED AND DESIRED PROGRESS WE MUST GET THE VIEWPOINT THAT IT IS NOT ONLY OUR HIGH AND HOLY DUTY, BUT MOST PROFITABLE, TO SEE OUR CHILDREN AND THEIR SCHOOLS FROM THE INVESTMENT SIDE AND PROVIDE GENEROUSLY THE FINANCIAL AID THAT IS IMPERATIVELY NEEDED.

Furthermore, we must awaken out of our apathy and see that this money is used to the best advantage and not frittered away by incompetence or graft. We have been furnishing two and a half to three million dollars per annum for our schools for a number of years. What number of citizens have at any time taken the slightest interest to know how this money was being expended? There seems to have been great waste. **WE HAVE ALLOWED THE INTEREST OF OUR CHILDREN TO DRIFT INTO POLITICS AND INTO CONFUSION. IT IS HIGH TIME TO CORRECT THIS.**

DR. DOLLE'S
MESSAGE TO MEN

YOU CAN BE CURED BY

DR. C. L. DOLLE, M. D.
Why Take Treatment That Is Doing You
No Good, When a Few Days under the care
of Dr. Dolle Will Show You How Easy It
Is to Cure These Diseases When the Proper
Treatment Is Administered.

Have you treated for months and years, and been disappointed until you think that you cannot be cured? You, no doubt, all this time have been treated by inexperienced doctors who had neither sufficient knowledge nor experience to know how to cure you.

These are the diseases of which I have cured so many, justly giving me the reputation for cures of which I am so proud.

Blood Diseases, Skin Diseases
I will give you treatment that will in a few days cure all rash, spots and every skin symptom. My treatment gets the poison out of the system instead of driving it in like ordinary treatments. I cure blood diseases and skin diseases so they cannot come back.

Varicose, causing aching or pain in groin or back, Nervousness, Weakness, Loss of Vitality, Lack of Ambition—

My one-treatment cure is what you should have and what you will have to have to be cured right. Only one visit is required. I do not cut and you suffer no pain nor trouble. All signs disappear in a few days.

Nervous Troubles, Lost Vitality
My combined treatment for these troubles so common among those who have become weak and worn out, who have caused it by folly, dissipation and excesses, is remarkably good. No one believes how quickly it benefits until they have taken it.

It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such diseases.

Kidney and Bladder Troubles
are scientifically cured by me. My methods immediately benefit you, and the majority of cases I cure come from physicians and specialists who failed.

Piles, Fistulae—I can cure you so quickly and easily that you will be surprised. I will give you just the result and cure you are looking for without a surgical operation.

Acute Diseases—Itching, Burning
remedies seldom cure. My treatment stops every symptom and cures in a few days. It is scientific—that's the only sure way to be cured so it will not come back.

You can take my Treatment without a cost and pay me after I cure you. I know that I can give you new life, new hope, and can restore you back to health and happiness. I know that every man will pay after I have eliminated every trace of disease from his system. Microscopic and analytical urinalysis FREE. I have written a book that ought to be in the hands of every suffering man in this country. I will send you a copy, free, if you will write me at once the disease for which you desire treatment. Hours, 9 to 4; Sundays, 9 to 1 p. m. Evenings, 7 to 9 on Monday, Wednesday and Saturday nights.

IMPARTING FRAGRANCE TO TEA

Species of Jasmine Flower Used by the Chinese to Give Beverage the Desired Aroma.

It is estimated that the Chinese consume annually five pounds of tea for each member of the population. It grows in small patches around the homesteads, plantations being practically unknown. The leaves are picked by members of the family and dried in the sun, being subsequently handed over to the middlemen, who subject them to the process of firing. In the case of green tea the leaves are roasted almost immediately after they are gathered, and dried off quickly after being rolled into balls by hand and squeezed. There are usually three pickings—early in April, when the leaves are covered with a whitish down (a limited output known as pekoe); toward the middle of May and again in August. Brick tea is made by pressing the damp tea in a mold in the form of a brick, 8 to 12 inches long and about one inch thick. The fragrance of all scented tea is not natural, but imparted by firing the leaf with a sort of jasmine flower, called by the Chinese "mok-lee." In inferior teas the scenting flower is strewn over the top of the tea when packed and removed after a day or two. Flowery pekoos are white, velvety tipped teas with no fragrance and are unfermented.

UNDER OBLIGATION TO NONE

Columbia Has Many Students Who Owe Their Education to Their Own Efforts.

One man in three meets at least a part of his expenses by his own earnings at Columbia. Beside the obvious occupations, like tutoring, stenography, newspaper, library, gymnasium, religious and social work of various kinds, there is a man who makes his living dressing windows; another who practices osteopathy; another man who divides his time between college work and the management of a theatrical star; a teacher in the Ferrer school; a taxidermist, an expert in color photography, a vaudeville performer, a hospital orderly, a Pullman porter, a printer, technical assistants from three of the great city laboratories, a professional baseball player and a tree doctor.

One of the most popular undergraduates started life as a newsboy. Last winter a sophomore of eighteen was tempted away from the college by the offer of a \$2,000 position in a publishing house, where he had worked before coming to Columbia. One student spends his summers upon a Central American plantation; another adds not only to his own income but to the reputation of the university by contributions to the most dignified of American reviews.—Columbia Monthly.

Premature Burial.

M. Thoinot, professor of forensic medicine to the Paris Academie de Medicine, has been lecturing upon premature burial, an accident the fear of which is, perhaps, not so prevalent as it was in the days of Edgar Poe. He gave an interesting description of the many inventions devised for the avoidance of this, including the insertion of a breathing tube in the mouth of the corpse, which is brought through the lid of the coffin and projected from the grave. But he declared that no precaution was so satisfactory as that of delaying the burial until the signs of putrefaction are apparent. The provisions of the code Napoleon, which ordain that no burial shall take place until twenty-four hours after death and inspection by the medical authority of the district, are, he said, entirely adequate on this point, and if they are carried out to the full, no one need have any fear of being buried alive.

Homesickness Spoils Photographs.

Aunt Maria thought, and so did her relatives in the big city, that the photographer was unparadoxically dis-courteous. For three successive days he refused to take Aunt Maria's photograph. On the fourth day he told why.

"In justice to her," he said, "I do not want to take her pictures now. She is too homesick. Most out-of-town people want to be photographed while in the city. If they are longing for home I put them off with one excuse or another until the homesickness wears off."

"If you want your aunt's pictures to turn out well, just hunt up some one from her home town who happens to be visiting here at present and bring him here so she will meet him unexpectedly. The meeting will put sparkle and animation into her face, and neither she, nor I will be disappointed with the photographs."

Finding the Crowned.

Occasionally one reads that, when human bodies are thought to be in rivers and cannot be found, "a loaf of bread has been floated down the stream." But very few people have the least idea what connection there is between bread and the finding of bodies. When the river has been dragged without result, a loaf of bread is cut in two, a place hollowed out in the middle, and a quantity of quick-silver inserted. The two halves of the loaf are then fastened together again, and the bread is thrown into the water in the place where the body is supposed to be. Without fail the loaf floats along until it reaches the vicinity of the body, and then revolves quickly, hovering over the spot.

What He Took.

"Going down the river to spend Sunday with the folks," panted the excited week-end jaunter, as he swung aboard a moving car. "No, I don't need any luggage; all I take for these week-end excursions is just a night-brush and a tooth-gown."

Eagle Not Always Brave.

Eagles are generally believed to be very courageous. That they are not always as brave as is supposed is proved by the following anecdote: A naturalist tells of a combat between ten miscal-thrushes and a white-tailed eagle, in which the latter was thoroughly vanquished, and was discovered squatting down in a shed, where he had been driven in hope of refuge from the angry birds.

You Want the Best—

Flanders "20" Roadster, \$750

Don't be alarmed if somebody tells you you can buy an automobile for less money than the \$750 Studebaker-Flanders "20." You can, but you better not. The Flanders "20" corresponds point by point with the best and highest priced cars sold. Cheaper cars at every vital point are built on ideas long ago discarded for good cars. Don't take our word for it. Make comparisons and see.

The Studebaker-Flanders "20" is a marvel—a high grade modern car at a low price. If you pay less you buy much less. And the cheaper car today will cost you far more in the long run. The competing car isn't sold which the Studebaker Corporation, the greatest automobile manufacturers in the world, couldn't reproduce for less money; but we won't build a cheap car, because the name "Studebaker" means the best for your money.

If you are content with a car that runs today and dies tomorrow, don't buy the \$750 Flanders "20." It will wear for years. Remember this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car under \$1100 and give you double satisfaction, confidence and comfort into the bargain.

Operated In This City as Well.

J. A. Chumley, aged about 17, was arrested in Elizabethtown on a charge of passing bogus checks. Complaints have been registered from several other cities and the authorities at Elizabethtown are holding the youth, who posing as an automobile agent, worked the "cold" check game very successfully.

Chumley was in Paris three weeks ago and while here gave out one of his bogus checks, but later paid it off in cash. He was not suspected of being crooked from the fact that the check was for a small amount. A few days after his arrival in Paris the drug-store of G. S. Varden & Son was entered and about \$50 taken from the cash register. Chumley disappeared the day following the robbery.

A warrant charging him with house breaking was in the hands of the local police when it became known that he had been taken into custody at Elizabethtown. Chumley's home is at Nashville, Tenn.

The regular show season at the Paris Grand will open on Wednesday, Sept. 4, when J. A. Coburn's Greater Minstrels will fill their annual fair date.

Mr. Coburn is one of the oldest minstrel men in the business, and he promises to give the best performance that he has ever arranged.

Songs will be rendered by the following vocalists: C. H. Crockett, Charley Gano, Richard Teitge, Lester Lucas and others.

An olio of six big acts will follow the first part. "The Frolic of the Fogie Men," a medley dancing divertissement, produced by Charley Gano, is said to be one of the prettiest acts ever used by the Coburn Minstrels.

Their engagement is for one night only, and all who appreciate minstrelsy in the highest type should not fail to see this performance.

Another feature of the Coburn Minstrels is their street parade in the morning, and the free concert before the performance at night.

Boy Killed Has Relatives in Paris.

Ray Clark, aged 19 years, died at the Harrison Hospital in Cynthiana, Wednesday morning from injuries received by being run over by a freight train at Robertson Station in Harrison county. Clark, whose home was at Myers Station, Nicholas county, was employed with a construction gang in double tracking the Louisville and Nashville railroad.

The accident occurred about 7 o'clock Tuesday night when the young man was standing on the track and a freight train backed down upon him. Both legs were horribly mangled. He was rushed to the Cynthiana hospital where both legs were amputated, the right near the body and left below the knee. The shock of the terrible ordeal was too severe and he succumbed to his injuries. The body was taken to Myers for burial Wednesday evening.

Clark was a nephew of Mrs. James Carrington, of this city, who attended the funeral yesterday.

STOCK, CROP AND FARM NOTES.

—While Boyle county has had abundant rains certain sections of Mercer county are suffering from a severe drought. Most of the rains have been local and while the crops in surrounding counties will be short on account of the dry weather the yields in Boyle promise to be prolific. The corn crop in Boyle is something immense.

—With only about \$300 worth of corn in controversy, the sixth trial of the suit between Jesse N. Fishback and Perry Ward, two farmers, is now being heard in the Quarterly Court at Carlisle. In the five preceding trials three have resulted in hung juries and the other two have been followed by appeals. The cost is now several times the amount in controversy.

—Due to the almost entire failure of the corn crop throughout the greater part of Central America much suffering exists there, according to advices received here. Many of the poorer classes have been reduced to the verge of starvation, it is said, and with little prospect for immediate relief the situation has become grave during the past few weeks.

—Farm demonstrators from the Federal Department of Agriculture will be stationed in ten counties in Kentucky next year. The Government and the State each have an appropriation to be used for this purpose, and a big manufacturing and distributing concern has adopted the policy of allotting \$1,000 to each of certain counties selected in a State for the purpose of promoting agriculture, on the theory that as agriculture prospers their sales increase.

These demonstrators will give expert advice to farmers regarding matters bearing on the character of soil, rotation of crops, methods of cultivation and fertilization, laying off the farm, drainage, building silos, barns, etc., and all questions arising in connection with practical farming.

Their method of demonstrating is unique. They make arrangements with the farmer whereby he plants his crop in a field according to his ideas, then the demonstrator takes a portion of the same field, plants the same kind of crop, after the most approved methods, and demonstrates, side by side with the farmer, the advantage of scientific methods.

The counties in which the demonstrators are to be located will be chosen so as to have the demonstrations on diversified kinds of soil. Commissioner Newman hopes before his term expires to have a demonstrator in every county, believing the wealth of the State can be multiplied. "If this can be done," said Commissioner Newman, "the increased yield will pay the expenses of the State government ten times over in a year."
